## **Dash announces alliance with Phoenix Systems**

Milwaukee, WI (July 6, 2015) — Dash, a leading developer of Document Management Software, announced today its partnership agreement with Phoenix Systems headquartered in Newmarket, Ontario, Canada.

Dash's *DDX*<sup>™</sup> Document Management system excels at integration with ERP systems. It is used by hundreds of companies in North America and the Pacific Rim. Dash's focus on small and mid-sized manufacturing and distribution companies brings a unique vertical approach to the market, and with it, rapid return-on-investment for its users. This is something which Phoenix clearly understands.

"We're very excited to be working with a highly reputable and successful provider of Document Management and Publication solutions" said Dan O'Toole, President of Phoenix Systems. "Our long time commitment of delivering efficiency improvements to our customers fits perfectly to the Dash product line".

"Phoenix Systems reputation as a premier provider of business software and services is a perfect fit for our customers" said Jim Van Hecke, president of Dash. "It gives our users more options, and broadens our network with a proven sales, support and consulting team".

Through the partnership, Phoenix Systems will make available Dash's *DDX*<sup>™</sup> Document Management software and leverage its long experience providing software and services to businesses in the USA and Canada.
